

Radiator Fast Flush TRUCKLINE

Bardahl Radiator Cleaner (Fast Flush) ensures complete cooling system cleaning (descaling, de-rusting, cleaning) and is harmless to hoses, seals, and metals.

Bardahl Radiator Cleaner is miscible with all standard coolants and antifreeze agents. It can be used with all types of engines (gasoline, diesel, LPG) and radiators (aluminum, plastic, etc.).

Manual

- Interior heating on hot
- Shake the bottle and pour the product into the cooling system.
- Inactive for at least 10 minutes or up to 100 km of driving with the heating on
- Let the engine cool down
- Drain the cooling system and rinse it with fresh water until the water is clear.
- Do not leave the product in the cooling system for more than 24 hours.
- 1 liter of product can clean a cooling system from 40 to 50 liters.
